Biographical Information

Jimmy Carter

Jimmy Carter (James Earl Carter, Jr.), thirty-ninth president of the United States, was born October 1, 1924, in the small farming town of Plains, Georgia, and grew up in the nearby community of Archery. His father, James Earl Carter, Sr., was a farmer and businessman; his mother, Lillian Gordy Carter, a registered nurse.

He was educated in the public school of Plains, attended Georgia Southwestern College and the Georgia Institute of Technology, and received a B.S. degree from the United States Naval Academy in 1946. In the Navy he became a submariner, serving in both the Atlantic and Pacific fleets and rising to the rank of lieutenant. Chosen by Admiral Hyman Rickover for the nuclear submarine program, he was assigned to Schenectady, New York, where he took graduate work at Union College in reactor technology and nuclear physics, and served as senior officer of the pre-commissioning crew of the *Seawolf*, the second nuclear submarine.

On July 7, 1946, he married Rosalynn Smith of Plains. When his father died in 1953, he resigned his naval commission and returned with his family to Georgia. He took over the Carter farms, and he and Rosalynn operated Carter's Warehouse, a general-purpose seed and farm supply company in Plains. He quickly became a leader of the community, serving on county boards supervising education, the hospital authority, and the library. In 1962 he won election to the Georgia Senate. He lost his first gubernatorial campaign in 1966, but won the next election, becoming Georgia's 76th governor on January 12, 1971. He was the Democratic National Committee campaign chairman for the 1974 congressional and gubernatorial elections.

On December 12, 1974, he announced his candidacy for president of the United States. He won his party's nomination on the first ballot at the 1976 Democratic National Convention, and was elected president on November 2, 1976.

Jimmy Carter served as president from January 20, 1977 to January 20, 1981. Significant foreign policy accomplishments of his administration included the Panama Canal treaties, the Camp David Accords, the treaty of peace between Egypt and Israel, the SALT II treaty with the Soviet Union, and the establishment of U.S. diplomatic relations with the People's Republic of China. He championed human rights throughout the world. On the domestic side, the administration's achievements included a comprehensive energy program conducted by a new Department of Energy; deregulation in energy, transportation, communications, and finance; major educational programs under a new Department of Education; and major environmental protection legislation, including the Alaska National Interest Lands Conservation Act.

Mr. Carter is the author of twenty-seven books. On December 10, 2002, the Norwegian Nobel Committee awarded the Nobel Peace Prize for 2002 to Mr. Carter "for his decades of untiring effort to find peaceful solutions to international conflicts, to advance democracy and human rights, and to promote economic and social development."

Rosalynn Carter

Rosalynn Smith Carter was born in Plains, Georgia, August 18, 1927 to Edgar and Allie Smith. She graduated from Georgia Southwestern College, 1946. She married Jimmy Carter July 7, 1946. Former First Lady Rosalynn Carter has worked for more than three decades to improve the quality of life for people around the world. Today, she is an advocate for mental health, caregiving, early childhood immunization, human rights, and conflict resolution through her work at The Carter Center in Atlanta, Georgia. The center is a private, nonprofit institution founded by former President and Mrs. Jimmy Carter in 1982.

A full partner with the president in all the center's activities, the former first lady is a member of The Carter Center Board of Trustees. She created and chairs The Carter Center's Mental Health Task Force, an advisory body of experts, consumers, and advocates promoting positive change in the mental health field. Each year, she hosts the Rosalynn Carter Symposium on Mental Health Policy, bringing together leaders of the nation's mental health organizations to address critical issues. Mrs. Carter emerged as a driving force for mental health when, during the Carter administration, she became active honorary chair of the President's Commission on Mental Health, which resulted in passage of the Mental Health Systems Act of 1980.

She served on the Policy Advisory Board of The Atlanta Project (TAP), a program of The Carter Center addressing the social ills associated with poverty and quality of life citywide, from the program's inception in 1991 until its transfer to Georgia State University in 1999. In 1988, she convened with three other former first ladies to partake in the "Women and the Constitution" conference at the Carter Center to assess the document's impact on women.

Outside the center, Mrs. Carter is president of the board of directors for the Rosalynn Carter Institute for Care giving (RCI) at Georgia Southwestern State University, which was established in her honor on the campus of her alma mater in Americus, Georgia. Through research, education, and training, the RCI promotes the mental health and well-being of individuals, families, and professional caregivers; delineates effective care giving practices; builds public awareness of care giving needs; and advances public and social policies that enhance caring communities. She has written five books.

Mrs. Carter has received many honors, among them the Volunteer of the Decade Award from the National Mental Health Association; the Award of Merit for Support of the Equal Rights Amendment from the National Organization for Women; the Notre Dame Award for International Service; the Eleanor Roosevelt Living World Award from Peace Links; the Kiwanis World Service Medal from Kiwanis International Foundation; the Jefferson Award from the American Institute for Public Service; the Georgia Woman of the Year Award from the Georgia Commission on Women; the Rhoda and Bernard Sarnat International Prize in Mental Health from the Institute of Medicine; the United States Surgeon General's Medallion; and the Presidential Medal of Freedom, America's highest civilian honor. In 2001 she was inducted into the National Women's Hall of Fame.
