### **James Mann, Author of "The Rebellion of Ronald Reagan", Coming March 11 *He'll Talk about Reagan and the end of the Cold War***

**Atlanta, GA.** – James Mann, the author of “*Rise of the Vulcans*,” comes to the Carter Presidential Library on Wednesday, March 11<sup>th</sup> at 7pm to discuss and sign his new book, “*The Rebellion of Ronald Reagan, A History of the End of the Cold War*.” Drawing on new interviews and previously unavailable documents, Mann offers a fresh and compelling narrative—a new history assessing what Reagan did, and did not do, to help bring America’s four-decade conflict with the Soviet Union to a close.

**Acappella Books is co-sponsoring this special free event and will be selling pre-signed copies of “The Rebellion of Ronald Reagan” at the lecture. Because of his schedule, Mr. Mann will not be able to sign books following his lecture.** Doors to the Carter Presidential Library theater opens at 6:30 pm. The program will be recorded for later airing by C-SPAN’s Book TV. No reservations are necessary but seating is limited so come early.

Mann sheds new light on the hidden aspects of American foreign policy. He reveals previously undisclosed secret messages between Reagan and Moscow; internal White House intrigues; and battles with leading figures such as Nixon and Kissinger, who repeatedly questioned Reagan’s unfolding diplomacy with Mikhail Gorbachev. He details the background and fierce debate over Reagan’s famous Berlin Wall speech and shows how it fit into Reagan’s policies. Ultimately, Mann dispels the facile stereotypes of Reagan in favor of a levelheaded, cogent understanding of a determined president and his strategy.

This book finally answers the troubling questions about Reagan’s actual role in the crumbling of Soviet power; and concludes that by recognizing the significance of Gorbachev, Reagan helped bring the Cold War to a close.
