The Pollinators is a cinematic journey around the United States following migratory beekeepers and their truckloads of honey bees as they pollinate the flowers that become the fruits, nuts and vegetables we all eat.

The many challenges the beekeepers and their bees face en route reveal flaws to our simplified chemically dependent agriculture system.

Pulitzer Prize winner Samantha Power, widely known as a relentless advocate for promoting human rights, has been heralded by President Barack Obama as one of America's "foremost thinkers on foreign policy."

In her memoir, Power offers an urgent response to the question "What can one person do?"—and a call for a clearer eye, a kinder heart, and a more open and civil hand in our politics and daily lives. **Tickets at**

Mo Rocca has always loved obituaries – reading about the remarkable lives of world leaders, captains of industry, innovators and artists. But not every notable life has gotten the send-off it deserves.

With ***Mobituaries***, the journalist, humorist and history buff is righting that wrong, profiling the people who have long fascinated him—from the 20th century's greatest entertainer...to sitcom characters gone all too soon...to a shamefully forgotten Founding Father. Even if you know the names, you've never understood why they matter...until now. **Tickets at ACappellabooks.com**

In a narrative both panoramic and intimate, Tom Chaffin captures the four-decade friendship of Thomas Jefferson and the Marquis de Lafayette. Steeped in primary sources, *Revolutionary Brothers* casts fresh light on this remarkable, often complicated, friendship of two extraordinary men.

From the daughter of one of America's most virulent segregationists, a memoir that reckons with her father George Wallace's legacy of hate--and illuminates her journey towards redemption. In this powerful new memoir, Peggy Wallace looks back on the politics of her youth and attempts to reconcile her adored father with the man who coined the phrase "Segregation now. Segregation tomorrow. Segregation forever."

JAY-Z: *Made in America* is the fruit of Michael Eric Dyson's decade of teaching the work of one of the greatest poets this nation has produced, as gifted a wordsmith as Walt Whitman, Robert Frost and Rita Dove. But as a rapper, he's sometimes not given the credit he deserves for just how great an artist he's been for so long.

This book wrestles with the biggest themes of JAY-Z's career, including hustling, and it recognizes the way that he's always weaved politics into his music, making

important statements about race, criminal justice, black wealth and social injustice.

The Suspect is a fascinating reconstruction of the Neo-Gothic tale of Richard Jewell, the security guard who was memorably and unjustly implicated in the 1996 bombing at the Atlanta Olympic games.

Meticulously reported, bracingly written, full of memorable and bizarre characters, the book casts a wary eye on the worlds of law enforcement and journalism, and their multiple failures in this tale. It's a story with no winners – except for readers of this terrific book.”

-- Jeffrey Toobin, bestselling author, staff writer at the New Yorker, and senior legal analyst at CNN
