April, 1978

To Senator

As President, I want to express my admiration for your support of the Panama Canal treaties. Rarely is a national leader called upon to act on such an important issue fraught with so much potential political sacrifice.

On behalf of the people of the United States, I thank you for your personal devotion, dedication, and political courage.

Sincerely,

[Signature]

(Note: Typical of many personal notes of thanks written by President Carter after the treaty was ratified.)
