Dear Governor Carter:

Thank you for your good letter of July 24. The American Society for Medical Technology was delighted with your interest in our views relative to important questions which should be taken into consideration as the legislative process for 1974-75 unfolds.

We are putting together some material which will give you some insight into our interests and concerns. This will be forwarded to your attention very shortly.

Thank you for your invitation for us to participate with you and democratic candidates in the months to come.

Sincerely yours,

Stephen B. Friedheim, CAE
Executive Director
