Per our discussion, it might be useful to discuss with Stu before it is forwarded to the President.

Thanks so much for your cooperation.

MEMORANDUM FOR THE PRESIDENT

FROM: STU EIZENSTAT *Stu*

SUBJECT: Owen Memo Re Coal

While I think this is a very exciting prospect, I believe some caution is in order and that before we schedule a meeting with the coal companies and railroads we should have our own interagency positions clear. Henry mentions the possible necessity for relief on some EPA regulations. Before this is mentioned to outside groups we should do the necessary internal work to see what is involved.

Also, DOE and DOT have not been involved in this initiative and need to have input prior to arranging any such meeting.

I would suggest that you ask Henry to get together with DPS, DOE, DOT and EPA on an expedited basis before you sign off on something with potentially unforeseen consequences.

MEMORANDUM FOR THE PRESIDENT

FROM: Hedley Donovan *HD*

SUBJECT: President's Commission for a National Agenda  
for the Eighties

I have been working with Chairman McGill and the White House staff to identify the names of persons we should invite to serve on the President's Commission for an Agenda for the Eighties. During our recent conversation you approved the list of potential candidates shown in attachment 1.

Appointment of the additional 25 members will complete the Presidential selection of members for the Commission. On October 24, 1979, you initially appointed 26 members to the Commission (see attachment 2). Since that time, Ms. Liz Carpenter has accepted an appointment with the Department of Education and will be unable to serve.

Suggest that we proceed in contacting the candidates to determine if they are available to serve on the Commission.
