MEMORANDUM TO: THE PRESIDENT AND MRS. CARTER
FROM: GRETCHEN POSTON
SUBJECT: SCENARIO FOR THE ARRIVAL CEREMONY HONORING HIS EXCELLENCY, PRESIDENT DANIEL T. ARAP MOI OF KENYA—FEBRUARY 20, 1980, at 10:00 AM

9:30 AM Welcoming and Official Parties arrive White House, South Lawn.

9:50 AM Official Party preceding President Moi arrives White House, and takes positions on the South Lawn.

9:57 AM THE PRESIDENT AND MRS. CARTER arrive at the Diplomatic Reception Room.

9:59 AM THE PRESIDENT AND MRS. CARTER are announced, and enter grounds to edge of red carpet.

(Music - "Hail to the Chief")

10:00 AM The motorcade carrying President Moi arrives - fanfare. Official introductions.

THE PRINCIPALS (3) proceed onto platform and into positions for honors.

(Kenyan National Anthem)
(U.S. National Anthem)
(21 Gun Salute)

THE PRESIDENT and President Moi descend platform for Inspection of Troops. Return to platform for remarks.

(ALL PRINCIPALS into positions—see attached)

Following remarks, PRINCIPALS return to positions facing south as Commander of Troops concludes ceremony.

ALL PRINCIPALS descend platform, ascend stairs to South Portico Balcony for press photo session. Continue into Blue Room for receiving line.
10:30 AM  Coffee is served in Blue Room.

10:45 AM  THE PRESIDENT and President Moi depart State Floor for Oval Office.

          MRS. CARTER departs State Floor.

MEMORANDUM FOR THE PRESIDENT
FROM: FRANK MOORE

The Windfall Profits Tax conferees made two significant decisions today:

1. to extend a 4¢ per gallon exemption for gasohol through 1992

2. to suggest that the revenues from the windfall profits tax be devoted to the following purposes:

   a. 60% for income tax reduction
   b. 25% for low income assistance
   c. 15% for energy and transportation programs

These decisions appear to be acceptable to us.
PHOTO OPPORTUNITY FOR REP. THOMAS J. DOWNEY (D-2-NY)

Wednesday, February 20, 1980
1:50 p.m. (5 minutes)
The Oval Office

From: Frank Moore

I. PURPOSE

To have your photo taken with Rep. Thomas Downey. The Congressman intends to formally announce his support for you at this time.

BACKGROUND, PARTICIPANTS & PRESS PLAN

Background: Rep. Downey has wanted to come to the White House to express his support for you for the past several weeks.

Participants: The President, Rep. Thomas J. Downey, Frank Moore and Bill Cable.

Press Plan: White House photographer only.

Additional Information: Rep. Downey was a member of the Armed Services Committee for two terms. In 1979, he switched to the Ways & Means Committee where he ranks 20th. He is also a member of the Subcommittees on Trade and Public Assistance and Unemployment Compensation. His support in the last session is 77.1%. As a reminder, you spoke with Rep. Downey back in January regarding the perfection of the hard target kill capability of the cruise missile while he was in Hawaii.
New York's 2nd congressional district covers the South Shore suburban communities of Suffolk County including the town of Islip and most of Babylon.

**TALKING POINTS**

1. Thank him for his support and tell him you look forward to his assistance in the upcoming months.

2. He might raise the subject of Grumman Aircraft Company in his district (Bethpage, Long Island). For your information, in the FY'81 budget, we proposed a reduction in aircraft acquisitions from Grumman.

3. Downey will probably bring up the subject of the sale of arms to the Peoples Republic of China. He feels that we should not engage in any arms sales to China as he is of the opinion that it would lead to World War III.

4. Rep. Downey will also probably mention Agent Orange which is a defoliant that was used in Viet Nam. He feels that not enough action is being taken by the Veterans Administration in response to the "cancerous effects" experienced by many veterans.

   You might tell him that you are concerned as well, and that we have an Intra-Agency Task Force set up to study the long-term consequences resulting from the use of Agent Orange. HEW is the lead agency in this task force.

5. Lastly, he might state that your posture of remaining in Washington until the hostages are released is not in your best interest. He feels you should get out soon—that it's hurting you to remain stationary within Washington.

MEMORANDUM TO THE PRESIDENT

FROM: Frank Press
Stu Eizenstat

SUBJECT: Radiation Protection Actions

Attached are an Executive Order creating a Radiation Policy Council and four Memoranda giving direction to the Council and to an Interagency Radiation Research Committee.

These memoranda and the E.O. implement the actions you announced in a White House Press Release October 23, 1979 (copy attached). These actions are intended to improve the Federal Government's efforts in radiation protection and to implement the major recommendations of an interagency task force on the health effects of ionizing radiation.

High officials of the thirteen agencies and departments with major interests and responsibilities in this area will serve on the Radiation Policy Council. The Council will be chaired by the Administrator of the Environmental Protection Agency, and EPA will provide its staff and administrative support. It has a four year termination provision. Three memoranda assign specific tasks to the Council:

- coordinate a program to reduce exposure to radiation
- review the radiation guidance function now held by EPA and other statutory authorities
- develop a public information program

The fourth memorandum directs the Secretary of Health, Education and Welfare to set up an Interagency Radiation Research Committee. HEW will chair the Committee and provide staff and support. This Committee supersedes an ad hoc committee.

Recommendation: We recommend you sign the Executive Order and Memoranda. The Executive Order has been cleared by the Office of Management and Budget, Department of Justice, and the White House Counsel's Office.

Doug Costle, who will chair the Radiation Policy Council, plans to issue a statement on the Council after the Executive Order has been signed, and your actions will be presented to the Congress at a hearing scheduled for February 22, 1980.

Approve
Disapprove
MEMORANDUM FOR THE CHAIR OF THE RADIATION POLICY COUNCIL

SUBJECT: Public Information Program on the Health Effects of Radiation Exposure, Sources of Radiation, and Ways to Minimize Exposure

The Interagency Task Force on the Health Effects of Ionizing Radiation examined the need for programs to inform the public and specific target population about the health effects of radiation exposure, sources of radiation, and steps that can be taken to minimize exposure. In its report, the Task Force identified the information needs of different groups and made a number of recommendations to improve the information programs of Federal agencies. The Radiation Policy Council should:

- assure that the Task Force recommendations for developing information programs are carried out by Federal agencies, and
- provide central coordination for Federal information programs concerned with radiation.

The Council should report to me on the status of Federal information programs concerned with ionizing radiation no later than September 30, 1980.

[Signature]

JIMMY CARTER
MEMORANDUM FOR THE CHAIR OF THE RADIATION POLICY COUNCIL

SUBJECT: Review of the Radiation Guidance Function held by the Environmental Protection Agency

The Environmental Protection Agency currently has the authority to provide broad guidance for Federal radiation protection and control activities. The Interagency Task Force on the Health Effects of Ionizing Radiation noted the concern which has been expressed about the appropriate scope of the guidance function and the response of other Federal agencies to the efforts of the Environmental Protection Agency. Many believe that the guidance function is ambiguous, especially in relation to other statutory authorities.

In order to improve interagency coordination and cooperation and to define clear lines of authority, I am directing the Radiation Policy Council to undertake a comprehensive review of the guidance function and other statutory authorities bearing on radiation protection. The Council should:

- determine the most effective procedures and the factors to be considered for developing guidance for Federal agencies;
- define the appropriate scope of the guidance authority;
- develop procedures to permit general oversight of guidance implementation by Federal agencies; and
- recommend executive action or legislation to clarify the guidance authority, if necessary.

In defining issues to be addressed during its review of the guidance function, the Council should consult the report of the Interagency Task Force on the Health Effects of Ionizing Radiation.
While the Council is conducting its review, the guidance authority should continue to be exercised as provided under Reorganization Plan No. 3 of 1970.

The Council should make recommendations to me no later than September 30, 1980.
MEMORANDUM FOR THE CHAIR OF THE RADIATION POLICY COUNCIL

SUBJECT: Reducing Exposure to Ionizing Radiation

The Interagency Task Force on the Health Effects of Ionizing Radiation reviewed the major sources of ionizing radiation and identified a number of opportunities for radiation exposure reduction. Those opportunities have not received a detailed analysis of their risks, benefits, or cost effectiveness. The Task Force made a series of recommendations, including a concerted program to reduce exposure in the healing arts, the most significant source of man-made radiation.

I am directing the Radiation Policy Council to coordinate implementation of the Task Force recommendations for radiation exposure reduction. The Council should:

- monitor the evaluation by Federal agencies of the feasibility, costs, risks, and benefits of each opportunity for exposure reduction;
- monitor Federal agency implementation of the proposals for exposure reduction, when appropriate;
- oversee a broad and effective program to reduce diagnostic radiation exposure from medical and dental sources;
- coordinate a full and open review by responsible Federal agencies of exposure standards.

The Council should report to me on its implementation of the Task Force recommendations for radiation exposure reduction no later than September 30, 1980.

Jimmy Carter
MEMORANDUM FOR
THE SECRETARY OF DEFENSE
THE SECRETARY OF LABOR
THE SECRETARY OF HEALTH, EDUCATION, AND WELFARE
THE SECRETARY OF ENERGY
THE ADMINISTRATOR OF THE ENVIRONMENTAL PROTECTION AGENCY
THE ADMINISTRATOR OF VETERANS AFFAIRS
THE DIRECTOR OF THE NATIONAL SCIENCE FOUNDATION

SUBJECT: Interagency Radiation Research Committee

After reviewing the recommendations of the Interagency Task Force on the Health Effects of Ionizing Radiation, I have concluded that there is a need for a formal, interagency mechanism to coordinate the extensive and diffuse Federal program of research into the biological effects of ionizing radiation.

I am therefore instructing the Secretary of Health, Education, and Welfare to establish an Interagency Research Committee with membership drawn from the agencies and departments addressed by this memorandum. And by a copy of this memorandum, I am also inviting the Nuclear Regulatory Commission to name a member to the Committee. The staff and other support necessary for the Committee to carry out its functions shall be provided by HEW.

I am requesting that each of the participating organizations name a representative at a senior level to serve on the Committee. The Committee may request the participation of other agencies as members or observers.

The Committee shall coordinate the Federal government's conduct of a comprehensive research program on the biological effects of ionizing radiation in order to ensure that the program is comprehensive and carried out efficiently, objectively, openly, and in accord with the highest scientific standards. The Committee shall:

- Coordinate the planning, implementation, and evaluation of Federal radiation research programs.
Coordinate research priorities to ensure that research is conducted and funded by the appropriate agencies under guidelines developed by the Committee.

Assure that the research needs of the regulatory agencies are addressed on a timely basis.

Review agency radiation research budgets and report by September 15 each year to the Office of Management and Budget and the Office of Science and Technology Policy on the adequacy of support for such radiation research and the appropriateness of the allocation of research funds among the Federal agencies.

Develop criteria for Federal radiation research management following a review of the current and past programs by the National Academy of Sciences.

Provide a point of contact on radiation research issues for persons outside of the Federal government and seek their advice, consultation, and participation in the work of the Committee in accord with the Federal Advisory Committee Act, as amended, where appropriate.

Provide, upon request, assistance to the Task Force on Compensation, chaired by the Department of Justice.

Perform other activities related to radiation research consistent with the Charter of the Committee, as requested by the Congress, or as directed by the President.

In carrying out these responsibilities, the Chair of the Committee shall consult regularly with the Chair of the Radiation Policy Council, the Director of the Office of Management and Budget, and the Director of the Office of Science and Technology Policy.

A proposed Charter for the Committee should be presented to the Director of the Office of Science and Technology Policy and the Director of the Office of Management and Budget for their approval prior to March 1, 1980. A report on the activities of the Committee shall be sent to me no later than January 31 of each year.
The Committee shall terminate four years from today unless extended by Presidential Directive.

I am directing all Federal agencies to cooperate fully in the efforts of the Committee. In particular, all Federal agencies should consult with the Committee before making commitments to fund research into the biological effects of ionizing radiation.

Jimmy Carter
EXECUTIVE ORDER

RADIATION POLICY COUNCIL

By the authority vested in me as President by the Constitution and statutes of the United States of America, and in order to coordinate the development of Federal radiation protection policy, it is hereby ordered as follows:

1-1. Establishment.

1-101. There is established the Radiation Policy Council.

1-102. The Council shall be composed of the heads of the following agencies or their representatives and such others as the President may designate:

(a) The Department of Defense.
(b) The Department of Justice.
(c) The Department of Commerce.
(d) The Department of Labor.
(e) The Department of Health, Education, and Welfare.
(f) The Department of Housing and Urban Development.
(g) The Department of Transportation.
(h) The Department of Energy.
(i) The Veterans Administration.
(j) The Environmental Protection Agency.
(k) The National Science Foundation.
(m) The Nuclear Regulatory Commission is invited to participate.

1-103. The head of each agency represented on the Council may designate an official of the equivalent rank of Assistant Secretary or higher level to serve as the agency's representative.
1-104. The Administrator of the Environmental Protection Agency, or any agency representative designated by him, shall chair the Council.

1-2. Functions.

1-201. The Council shall coordinate the formulation and implementation of Federal policy relating to radiation protection. In carrying out this function, the Council shall:

(a) advise on the formulation of broad radiation protection policy;

(b) monitor implementation of Federal radiation protection policies by Federal agencies;

(c) assist in the resolution of conflicts in jurisdiction among Federal agencies and recommend corrective legislation if needed;

(d) ensure effective liaison with the States and the Congress;

(e) serve as a forum for public participation and comment; and

(f) perform such other functions as the President may direct.

1-202. The Council shall keep the Director of the Office of Science and Technology Policy, the Director of the Office of Management and Budget, and the Council on Environmental Quality informed of the activities of the Council.

1-203. The Council shall prepare an annual report of its activities and transmit the report to the President and the heads of the agencies represented on the Council on or before September 30 of each year.

1-301. The Environmental Protection Agency, to the extent permitted by law, shall furnish administrative support, funds, staff, and other assistance to the Council as necessary to carry out its functions.
1-302. Federal agencies, to the extent permitted by law, shall provide to the Council that information and assistance which it requests in order to carry out its functions.

1-303. The Council shall transmit its final annual report and terminate four years after the date of this Order.

THE WHITE HOUSE,
FOR THE RECORD: Copies of the attached to Nell Yates and 1039 to Louis Martin.
The attached was returned in the President's outbox today and is forwarded to you for your information.

MEMORANDUM FOR THE PRESIDENT

FROM: Charlie Schultze

Subject: Revised Estimates of Real GNP in the Fourth Quarter of 1979

 Tomorrow (Wednesday, February 20) at 11:00 a.m., the Commerce Department will release revised estimates of GNP in the fourth quarter of last year.

The revised estimates indicate that real GNP last quarter rose at a 2.1 percent annual rate -- slightly above the 1.4 percent estimated earlier. There were very small upward revisions in personal consumption expenditures, business fixed investment, and residential construction. These changes are not large enough to alter one's views as to the strength of the economy. However, they do confirm other indicators of an economy that entered 1980 on a course that is stronger than expected.

Zbig Brzezinski
MEMORANDUM FOR: THE PRESIDENT

FROM: Charles W. Duncan, Jr.

SUBJECT: Canadian Gas Prices

On January 18, the Canadian National Energy Board recommended that the price of natural gas exports be increased from $3.45 to $4.47/MMBtu. One concern associated with this increase was the substantial reduction of the "lag" time characteristic of previous pricing adjustments. This reduction, coupled with the explosive OPEC price increases of 1979, has resulted in Canadian gas prices which exceed competitive prices for alternate fuels and raise serious precedential problems for us with Mexico and Algeria.

Subsequent to my February 8 memorandum, extensive consultations were undertaken. During the discussions, the Canadians insisted that it was never their objective to become price leaders in U.S. markets vis-a-vis OPEC oil. Further, an understanding was reached with Deputy Energy Minister Stewart offering his personal assurances that no new price changes would occur until at least June 1 and that an appropriate lag period (on the order of 70-90 days) will be adopted as an integral part of the formula application process in the future.

On February 17, we issued a regulatory decision which indicates that the $4.47 is unacceptable, and calls for company submissions on the future of Canadian gas, while temporarily approving the $4.47 through the heating season. If the new Canadian government delivers on the assurances, the regulatory exercise can be set aside. Since new contracts must be evaluated in light of higher gas prices, alternate fuels and U.S. consumer impacts, some new contract volumes were not approved. We expect firm Canadian action within a month of their election.

You should be aware that by approving, even on a temporary basis, the $4.47 Canadian price, we are paving the way for the Mexicans to renegotiate existing contracts to reach parity. The Mexican price of $3.625/MMBtu is 23% below the Canadian price. We may have to consider some interim compensation for the Mexicans, but it is imperative that this price leap-frogging not continue. Toward that end, we expect to develop an appropriate mechanism for bringing both Canadian and Mexican price adjustments in line.
Jack Watson

The attached was returned in the President's outbox today and is forwarded to you for appropriate handling.

Rick Hutcheson

cc: Arnie Miller
We join with Stu Eizenstat in recommending you appoint Peter H. Schuck, of Connecticut, to be a member of the Council of ACUS. Margaret McKenna, Acting Chairman, concurs.

ACUS is responsible for developing improvements in the legal procedures by which Federal agencies administer regulatory, benefit and other government programs. The Council of ACUS acts as the executive board and is composed of eleven members, all of whom you appoint. Five Council vacancies currently exist, two of which can be filled by administrative law experts from the private sector.

Peter H. Schuck, 39, is currently an associate professor at the Yale Law School. He served as Deputy Assistant Secretary for Evaluation and Planning at HEW for the first two years of your administration, and is the former Director of the Washington Office of Consumers Union, a public interest law firm. Schuck is well-known for his support for reducing red tape and unnecessary restrictions in the regulatory process, and has written extensively on the subject. His appointment to the Council would help establish support for re-evaluation of these issues within the legal community.

RECOMMENDATION:

Appoint Peter H. Schuck, of Connecticut, to be a member of the Council of the Administrative Conference of the United States.
PETER H. SCHUCK
Connecticut
