To Governor Hugh Carey

I enjoyed the hospitality extended to me in New York, and appreciated the warm welcome I received.

Your efforts have shown a firm commitment towards solving the tough problems that face this country. The leadership you provide is important and will determine the future of generations to come.

With best wishes,

Sincerely,

President Carter, making a quick trip to New York City one week before he expects to return as his party's Presidential nominee, yesterday accepted Ronald Reagan's tax plank.

Senator Resists Appeals to Pledge His Unequivocal Support for Whoever Is the Nominee

BY HEDRICK SMITH

Special to The New York Times

WASHINGTON, Aug. 6 - Senator Edward M. Kennedy, resisting appeals he unequivocally pledge support for whoever is the party's Presidential nominee today disclosed plans to break party tradition by personally taking part next Tuesday's convention debate on economic planks of the Democratic form.

Not since 1896, when William Jennings Bryan made his famous "cross of gold" speech, has a potential Presidential candidate made a major address to a Democratic convention before the nomination roll-call.

In announcing his plan, the Senator said that he would welcome President Carter's joining him in a debate at convention, something that he has done throughout the campaign. And he commented that he was "running against an opponent who wants a closed convention and who has a secret economic program that he's going to announce after the convention."

"Rules Debate in Prime Time"

Mr. Kennedy's made his disclosure only a day after the Carter campaign agreed to allow a debate on campaign rules in prime television time in return for a pledge from Kennedy not to run as the "United States" party's candidate. Almost by the time the agreement had become public, however, Senator Kennedy and his aides were qualifying their support and creating uncertainty that the Senator would succeed Mr. Carter as the nominee.

The Massachusetts Democrat suggested the debate drop out of the discussions for the nomination and announced that he would support Senator George McGovern of South Dakota, the other major candidate for the Democratic nomination.

SUBJECT: Presidential Talking Points: Bluegrass Music Introduction at Georgia Barbecue

Scheduled Delivery:
Thu, Aug 7, evening
South Lawn

Your talking points for introducing this music are attached.
Bluegrass

1. IN THE LAST THREE AND A HALF YEARS HERE WE HAVE HEARD JAZZ MUSICIANS, GOSPEL SINGERS, AND CLASSICAL MASTERS. BUT TONIGHT IS A FIRST FOR BLUEGRASS BANJOES AND GUITARS. ROSALYNN AND I DECIDED THAT WE NEEDED THE RIGHT GUESTS AND THE RIGHT FOOD BEFORE WE INTRODUCED BLUEGRASS TO THE WHITE HOUSE.

2. WHILE TONIGHT'S MUSIC MAY BE NEW TO OUR WHITE HOUSE, TONIGHT'S PERFORMERS -- DOC WATSON AND BILL MONROE AND THE BLUE GRASS BOYS -- ARE NOT NEW TO BLUEGRASS. THEY ARE THE OLDEST AND BEST PERFORMERS OF WHAT SOME WOULD CALL THE BEST MUSIC.

3. A CONGLOMERATION OF EUROPEAN FOLK TUNES, OLD-TIME APPALACHIAN MOUNTAIN SONGS, NEGRO BLUES AND COUNTRY CHURCH GOSPEL, BLUEGRASS PERSONIFIES THIS COUNTRY. PART HEART, PART SOUL, IT IS MUSIC THAT SINGS FOR EVERYONE. IT IS DOWN-TO-EARTH MUSIC THAT LIFTS OUR SPIRITS HIGH.

4. DURING THE BARBECUE, WE'VE BEEN HEARING THE LEE JESSUP COUNTRY BAND FROM LAURENS COUNTY, GEORGIA. THEY'RE ALL MOONLIGHTING. ONE IS A SCHOOL TEACHER, ANOTHER IS A FARMER, ANOTHER A MAYOR. WE HAVE A LOT TO THANK LAURENS COUNTY FOR TONIGHT. THE COOKS, TOO, CAME UP SPECIALLY TO PERFORM FOR THIS GROUP.

5. RALPH RENZLER, ONE OF THE MOST NOTED FOLK HISTORIANS IN THE COUNTRY AND RESPONSIBLE FOR THE VERY SUCCESSFUL SMITHSONIAN FOLK FESTIVALS, IS HELPING ME TONIGHT BY GIVING ADDITIONAL BACKGROUND ON EACH INDIVIDUAL GROUP.

MEMORANDUM FOR THE PRESIDENT

Subject: Funding of Pollution Control at Federal Facilities

The Military Construction Authorization Act of 1980 requires that you determine whether the portion of a municipal sewage treatment plant used by a Federal facility, such as a defense installation, is eligible for funding through EPA's Construction Grant program or whether it should be funded directly by the Federal Agency. This requirement was inserted in the legislation after a GAO report questioned the current policy. The Environmental Protection Agency (EPA) currently interprets the Clean Water Act as allowing it to exclude the Federal facility portion from its grant funding. This excluded portion is funded by appropriations requested specifically for that purpose by a Federal Agency.

I have thoroughly reviewed this issue and determined that, from a programmatic standpoint, no change should be made in the current policy. The Department of Justice has advised us that, from a legal standpoint, EPA's interpretation of the Clean Water Act is within its statutory authority and should be given deference. Therefore, with your concurrence, I will notify Congress that you have determined that the current policy should remain in effect.

Mr. President---

A standup mike will be available just outside the hospital for your use after your talk with Vernon Jordan so that you may make brief remarks on your visit with him.

Following their visits with Jordan in the last few days, Kennedy, Anderson and Reagan have all come outside and made brief remarks about how well Jordan looks, that he's in good spirits, etc.

Jody suggests that in addition to whatever serious remarks you may wish to make about your visit with Jordan, you say something along these lines:

---He seemed in good spirits, especially when I told him I was the only politician who was going to come see him today.

OR

---He seemed in good spirits and particularly relieved that there are not 16 political parties---if there were he'd have to see the candidates from all 16 parties.

MEMORANDUM FOR THE PRESIDENT

From: Charlie Schultze

Subject: Did the import share of the auto market go up or down in July?

Yesterday I sent you a memo pointing out that, on a seasonally adjusted basis, the import share in July fell slightly as compared to April-May. The newspapers this morning are reporting that the import share reached a new peak in July. Which figure is "correct"?

Actually, both figures are correct. I gave you seasonally adjusted numbers, and the share is down slightly. The newspapers are reporting raw numbers, and on that basis the share is up slightly. The actual difference is small. The important thing to remember is that imports are maintaining their high share of the domestic market, mainly due to continuing relatively strong demand for fuel-efficient cars that domestic manufacturers are still having trouble satisfying.

MEMORANDUM FOR THE PRESIDENT
FROM: JODY POWELL
SUBJECT: Attached statement

Lloyd and Muskie feel that you should issue this statement tomorrow. I have some doubts about its time and how you look if you are turned down flat by the Iranians.

Please look at it so we can discuss at the 10:00 am staff meeting tomorrow. It has been cleared by State, Justice and Zbig.

Attachment
I have noted that Iranian leaders have sharply criticized the arrest and detention of almost 200 Iranian students who participated in a demonstration in Washington 10 days ago. Those Iranian citizens were guests in our country, admitted for the purpose of obtaining a university education. They have been treated in strict accordance with our laws. They have been afforded the full protection of a legal system that guarantees -- as well as any in the world -- the rights and freedom of the individual.

I want to describe briefly how these Iranian citizens have been treated and to ask the Iranian leadership to consider that treatment as they deal with the question of our hostages in Iran.

The Iranian students were arrested when they became unruly and resisted police orders at the demonstration. They were held in detention as long as they refused to give their names to the police and immigration authorities. They had free access to the telephone, and to lawyers, friends, religious counselors and the Algerian diplomats who are acting for Iran in the United States.

After a week's detention the students all agreed to give their names. They have all now been released to return to their homes and universities in the United States to finish their studies. The attached statement gives a full report on their treatment under those laws.
I want to go beyond that, however. I want to extend an invitation to the leadership in Iran to send any delegation they wish to our country to review the way the Iranian citizens have been treated, to interview those citizens and their lawyers and the American law enforcement officers, and to return with their citizens to Iran if they desire to go. I place no conditions on this invitation. I would hope that the leaders of Iran would reciprocate by allowing Americans to visit our hostages and to bring them home to their families.

We have no apology to make for our handling of the Iranian student demonstrators. Let the Iranian leadership now show the same openness and compassion in their treatment of the hostages. Let them contrast the treatment given to our people and their ability to have contact with the outside world. We urge the Iranian authorities to show the same good will and humanitarian feelings and to allow the Americans to return to their families and friends.

MEMORANDUM FOR THE PRESIDENT
FROM: JODY POWELL
SUBJECT: "60 Minutes" Interview

I wanted to let you know briefly about preparations for your "60 Minutes" interview this Friday and to get a few decisions from you.

First, the program will run on Sunday night in their regular slot. This will mean an audience of roughly twice the size of the Reagan interview, which ran as a special on Monday.

Your total time spent with Rather will be about 90 minutes. There will be three segments of roughly equal length. The first is on domestic policy and the economy. They are primed to ask you about your new program and that probably will be the first question. Stu is preparing a special brief memo for this question in addition to the regular Q&A on domestic affairs.

The second segment will be on national security matters. It will focus on Afghanistan, Iran and the grain embargo. Harold Brown is preparing about a page and a half of his best points on defense. Zbig is putting together about the same length over-view on Afghanistan. Bergland has given us a page or two of his best debating points on the embargo. We will have a NSC/State short piece on Iran, "where we are and where we go from here." We will also give you a one-page "brag" sheet on foreign policy accomplishments along with standard Q&A on a few other topics.

The third segment will focus on the political year and the problems you face, both at the convention and in the fall. Rafshoon and Pat will give us a boiled-down themes memo, and we will prepare additional Q&A on any rules and platform issues that might come up.

We will have these briefing materials to you by Thursday afternoon.
Since this interview is so important, I would like to have an hour for practice on Friday morning. Phil says the best time might be at lunch if you have no objection to moving the interview from 1:30 pm to 2:00 pm. (The entire process will take about 90 minutes of your time.)

Can we set up a practice Q&A at 12:00 Friday and begin the interview at 1:30 pm?

Yes ☐ No ☐

After talking to Rafshoon, I would like to do the interview in the Oval Office with you behind your desk. This is the most Presidential setting. "60 Minutes" would need to begin setting up at 11:30 am. Phil says this presents no problems. Your only scheduled event between 11:30 and 2:00 is a ceremony with black educators that will be either in the Cabinet Room or in the Rose Garden.

Can we do the interview in the Oval Office?

Yes ☑ No ☐

"60 Minutes" would like to have the First Lady take part. I think she should participate along with you for the final 15-20 minutes. I would like to have that segment done in the library at the residence. They could already be set up there, and you and Rather could walk over and meet the First Lady there.

The alternative is to do that portion from the setting in front of the fireplace in the Oval Office.

Do you want the First Lady to take part?

Yes ☑ No ☐

If so, where do you want to do it?

Library ☐ Oval Office ☑

This interview is the only major, pre-convention press event I have requested for you. It will be seen by almost all the delegates and a large portion of the country. It is extremely important.
Since you have the Georgia barbecue on Thursday night, I will get briefing material to you by that afternoon in time for you to begin preparation before the barbecue starts.

I hope you will keep Friday morning as clear as possible, too. We will cut short or eliminate the 10:00 am staff meeting.

To James Tuppeny

I want to thank you for your excellent work in organizing the Liberty Bell Track and Field Classic.

I regret that longstanding previous commitments kept me from Philadelphia, but I have heard what a success the event was. It took the outstanding efforts of you and your colleagues at the Penn Relays to create such a successful event on such short notice.

Sincerely,

Yesterday, Senator Jackson's wife (Helen) had a hysterectomy. She is doing quite well today. Obviously, we have political differences with Scoop, but a call from you to him inquiring as to her condition would be appropriate.

Scoop is a devoted husband and father. He would appreciate and respect your expression of concern. Our alternative recommendation is that the First Lady call Mrs. Jackson directly.

MEMORANDUM TO THE PRESIDENT
FROM:  
JACK WATSON  
ARNIE MILLER  
SUBJECT:  
Ambassadorial Appointments  

Secretary Muskie has made the following recommendations for Ambassadorial assignments:

Harry Shlaudeman  
Argentina  

John Bushnell  
Chile  

Thomas Boyatt  
Colombia  

Edwin Corr  
Peru  

Harry Thayer  
Singapore  

All of the candidates are Foreign Service Officers.

Zbig concurs.

We delayed sending these recommendations to you because, at Frank Moore's strong request, we were exploring with State the possibility of a Latin American embassy for Governor Dolph Briscoe. We were also concerned that the number of embassy changes for the region recommended by State this late in your first term would make it difficult to place Hispanics and other non-career ambassadors in 1981.

Warren Christopher has, however, agreed to help us develop a more suitable assignment for Governor Briscoe and to help identify embassies where non-career ambassadors might be posted in your second term.

RECOMMENDATION:

That you nominate Harry Shlaudeman for Argentina; John Bushnell for Chile; Thomas Boyatt for Colombia; Edwin Corr for Peru; and Harry Thayer for Singapore.

1956 to 1959 Consular Officer, Hong Kong
Thayer is one of the Department's leading experts in Chinese affairs, having served in Beijing, Taipei and Hong Kong and in related offices in Washington. He also has substantial experience in multilateral diplomacy at the United Nations. He is a talented manager, with unusual skills in personal relations and communications. A dedicated and innovative professional, he also has great strength in substantive analysis and judgment. His knowledge of China and the Chinese language would be excellent background for the Singapore mission.
MEMORANDUM TO THE PRESIDENT

FROM: JACK WATSON

ARNIE MILLE

SUBJECT: Public Printer

Recently, you returned our recommendation of Gerald Dillon for Public Printer.

GPO has 7500 employees and an annual budget in excess of $600 million. Considered highly inefficient, it spends two-thirds of its budget buying printing services from private concerns. Relations between management and labor are not particularly good and its record in utilizing female and minority workers is extremely poor. It was recently fined $16 million for paying males more than females for the same work.

In conducting our search we sought candidates who first met the legal requirement of being "... practical printer(s) versed in the act of bookbinding," and who possessed records as successful managers, including having worked productively with labor unions, females and minorities. Additionally, since GPO is considered an agency of the Congress in the same manner as GAO, we sought individuals with experience in political environments.

Dillon was originally suggested to us by people in the industry, not the Vice President. After checking with many other people in the industry and the labor movement, we concluded that he was clearly the best candidate. He is president of a family-owned printing company he started thirty years ago that currently grosses $12 million annually. The company does business in all fifty states and several other countries. Labor leaders in his area were high in their praise of him and his work with them through the years. He is very active politically and once ran for mayor of Minneapolis.

We checked the figures on Presidential appointees from Minnesota and found that the state has not received a disproportionate number of appointments. The state ranks 19th in the country in resident population and 19th in the number of Presidential appointments.
We were assisted in our efforts by Senator Pell, chairman of the committee that will consider the nomination, the industry and the appropriate unions.

Our second choice is James Joyner, Director of the Defense Printing Service - Washington, which is second only to GPO in printing facility size in the federal government. Joyner, a black, started as a printing specialist in the Defense Department 14 years ago and has had several promotions leading to his current position. He is well versed in printing technology and is considered a very capable manager. He experienced no difficulty in moving from a position with limited responsibility to one that placed him in charge of 340 employees and a budget of $32 million. He, too, was recommended by the industry. He was not our first choice because of his limited contact with unions and the Congress. He is a good inside man but lacks enough outside experience. We do think he would be an excellent choice for the deputy's job, which will be open when the current deputy retires in a few months.

Frank Moore and Landon Butler concur in our recommendation of Dillon.

COMMENTS ON GERALD DILLON

John Grant, Director - Government Affairs, Printing Industries of America.

Dillon is highly respected, nationally, in the printing industry. He will bring a much needed, fresh approach to solving many long-term problems at GPO. He has an excellent ability to get along with different people and he certainly has the political knowledge that is needed to deal with the Congress and the Joint Committee on Printing.

Dave Roe, President, Minnesota State AFL-CIO.

I have known Dillon for 25 years and he is a top-notch person. All of our dealings have been very smooth. He is fair and honest at all times, including during contract negotiations. I recommend him wholeheartedly.

Virgil Moline, President, Minneapolis Central Labor Union.

Dillon has always run a union shop and we have always enjoyed an excellent relationship with him. He is a good friend of labor and labor endorsed him when he ran for mayor. We have never had the slightest problem with him. You could not find a better person for Public Printer.

William Laughlin, President, Inner-City Paper Company.

I have known Jerry Dillon for years. You can't find a finer person. He is a successful businessman who contributes a lot to his community. He is a good Democrat of long standing and a strong family man. He would bring to GPO the kind of leadership that it has needed for a very long time. I endorse him enthusiastically and without qualification. He has earned it and would do a great job.

MEMORANDUM FOR THE PRESIDENT
FROM: STU EIZENSTAT
SUBJECT: Conservation Community Letter

Attached is a letter that responds to the Conservation Community letters that were sent to you on March 21 and June 6. The Community has regularly sent these letters to you addressing various issues and you have regularly responded.

Rather than sending a lengthy letter detailing answers to the many points that they raised, your letter is brief and mentions only a few key issues. I will respond with a more detailed letter.

This letter mentions again the need for strong Alaska legislation, your support of nongame wildlife legislation and your approval of the Great Plains Conservation Program and the Central Idaho Wilderness Act.

Together with CEQ, I recommend that you sign this letter. (Speechwriters have also approved.)

To Louis Clapper

Thank you for your letters of March 21 and June 6. I appreciate your comments on the February 29 Environmental Decade Celebration and was pleased to see so many people take part in commemorating the tenth anniversary of Earth Day.

On July 21, I again addressed members of the conservation community in the East Room to launch our effort to secure adequate Alaska lands legislation on the floor of the Senate. This measure is the most graphic demonstration of the kind of farsighted stewardship that is essential if we are to preserve portions of our national heritage for ourselves and for future generations.

I have asked Stuart Eizenstat, my assistant for domestic affairs and policy, to respond to the specific concerns you raised in your letters. You urged me to support nongame wildlife legislation, and I am pleased to report that both Houses of Congress have now passed nongame wildlife bills. I look forward to signing this legislation, assuming of course that the differences between House and Senate bills are reconciled in a way that is acceptable to the Administration. Regarding the Black Bass and Lacey Acts, committees in both Houses have reported out bills and plan floor action soon on the reforms I proposed for strengthening these laws.
You recommended that I sign H.R. 3789 extending the Great Plains Conservation Program. I did so on June 6. Many of you were present when I also signed legislation protecting the Salmon River and creating the River of No Return Wilderness in Idaho, now the nation's largest wilderness area. This marks the enactment of legislation I proposed in my 1977 Environmental Message and reemphasized in my 1979 Environmental Message and February 29 speech.

I look forward to continuing to work with you.

Sincerely,

Mr. Louis Clapper
Convener
Conservation Community
c/o National Wildlife Federation
1412 16th Street, N.W.
Washington, D.C. 20036
TO: The President  
FROM: The Conservation Community  

Mr. President:

Following up on our last personal discussion with you, we are continuing our series of
memoranda. Again, we appreciate the time and trouble you and your staff have taken to respond
to our concerns.

First, however, we commend you for your forceful and perceptive remarks at the Second
Environmental Decade celebration held February 29, 1980, at the White House. We agree with you
that the Water Resources Authorization bill is a travesty. We concur with your goal of
achieving energy conservation. We appreciate your high priority interest in Alaska lands,
nuclear and hazardous waste disposal, and the proposed National Heritage Policy Act.

Following are specific items to which we invite your attention:

Offshore Leasing Policy. In two previous letters to you, we expressed our grave concern about
the rush to drill for oil in the fragile Arctic seas. U.S. District Court has agreed with our
warnings and blocked the first lease sale. We urge you to suspend the 5-year OCS Lease Schedule
for the Beaufort, Chukchi, and Bering Sea until: 1. the Federal agencies have complied with
environmental laws and regulations; and, 2. the oil industry has developed the technology for
safely drilling in the ice-filled polar seas and has the capability of containing and cleaning
up an oil spill. Also, we urge you to register a strong protest with the Government of Mexico
over the lack of effort in plugging and cleaning up the nine-month old oil spill in the Gulf.

Whaling Policy. The U.S. has abdicated leadership in the international effort to end commercial
whaling because the U.S. Commissioner to the International Whaling Commission (IWC) has given
priority to obtaining a high quota for Alaska's Eskimos on the endangered bowhead whale. The
U.S. must not compromise its principles by trading off hundreds and thousands of whales to the
commercial whaling nations for a handful of bowhead whales. Please direct our IWC Commissioner
to adhere to your commendable policy against commercial whaling and to oppose all secret
meetings at the IWC.

Energy. Energy Mobilization Board conferees are moving toward an agreement which would allow
waiver of any future law, regulation, or permit decision under a so-called grandfather
 provision. Such an outcome is completely unacceptable to us and will lead to unprecedented
regulatory uncertainty and inefficiency for federal and state permitting agencies. We are
alarmed and disappointed that you have not made your personal views known directly to conferees.
We ask you to examine the conference proposals yourself and to meet with key conferees while
there is still time to influence the final conference agreement.

Man and the Biosphere. On March 9, 1979, the Directors of NSF and your Office of Science and
Technology Policy issued a memorandum to heads of certain departments and agencies. This
memorandum asked them to take steps to "participate fully" in UNESCO's Man and the Biosphere
Program and to cooperate in the development and implementation of it. Agriculture and Interior were
asked to work with the National MAB Committee in drafting a National Plan. This plan is near
completion and needs early implementation, both domestically and internationally. However, thus
far we have been unable to identify MAB program increases in budgets for either the Forest
Service or the Park Service. We hope you can express a strong personal interest in this
scientific effort.

Endangered Species. We greatly appreciate your recent action in significantly increasing
funding and manpower for the Endangered Species Program, done at your direction largely through
the efforts of Messrs. Stuart Eizenstat and Gus Speth. If properly implemented by the Interior
Department, these funding and manpower additions have the potential for helping save thousands
of imperiled species from extinction. Recent problems in the Program include the withdrawal in
November, 1979, of proposed protection for some 1,800 endangered species of plants and animals.
We hope you will make it clear that you expect Interior to take seriously your November 7, 1979,
directive to Secretary Andrus to "expedite the program."

Personnel. We are concerned about the impact that personnel "reductions in force" or ceilings
have on natural resource agency capabilities for accomplishing their missions. These, with
retirements and other forms of attrition and increased program responsibilities, are bringing
about serious personnel imbalances. This situation points to a need for a federal policy that
results in a minimum annual input of professionals by disciplines.

Transportation Fuel Efficiency. We recommend that you instruct EPA to expedite the
establishment of increased fuel efficiency standards in post-1985 autos and light trucks and
support other initiatives in this area. It is imperative that such standards be set very soon,
because manufacturers need lead time.

Again, if you or your staff have specific questions about any of these items, please contact me
and I can refer then to members of the community who specialize in these issues.

Respectfully,

Louis S. Clapper  
Convenor of the Conservation Community

March 21, 1980
P.S. Regarding the Energy Mobilization Board's late developments:

We greatly appreciate your statement of February 29, opposing waiver of substantive law or a broad grandfather clause. Moreover, as you know, House EMB conferees have continued to insist on an existing law waiver in addition to a grandfather. Some conferees are advocating a compromise which would allow such waivers subject to a slight modification of the 2-House concurrent process in the House bill. Such an outcome would be completely unacceptable to us and inconsistent with your stated position. We ask you to order an aggressive administrative effort to remove existing law waivers altogether, and we ask that you meet with environmental leaders to discuss the EMB situation as requested in their telegram to you of March 17.

TO: The President
FROM: The Conservation Community

Mr. President:

This continues our series of memoranda, calling your attention to issues of major concern to the conservation/environmental community. These are in addition to those identified in our memorandum of March 21, 1980.

We applaud your move on the Love Canal problem and hope that this situation will result in the application of strict regulations to handle the disposal of toxic wastes throughout the world as well as in the United States.

Following are specific issues to which we invite your attention:

Conservation Strategy. Earlier this year, the International Union for the Conservation of Nature and Natural Resources (IUCN) issued a World Conservation Strategy. This report called for each country to adopt its own National Conservation Strategy, developing program priorities to approach conservation/environmental problems. We invite you to support the development of such a strategy for the United States.

International Wildlife. The uncontrolled trade in animals, birds, fish, and plants worldwide is endangering innumerable species of wildlife. We strongly commend you for your efforts to crack down on trafficking in the U.S. We urge your Administration to support the International Wildlife legislation now being considered in Congress, and to use sanctions under the Lacey Act and the Pelly Amendment to bring about compliance with other nations' wildlife laws and international conservation treaties.

Non-game Wildlife. We anticipate that Congress will approve a non-game wildlife bill and forward it to you for signature to become law. Assuming it establishes the much-needed cooperative state-federal, grant-in-aid program that broadens and strengthens the total wildlife program of each state and territory, and therefore the nation, we respectfully request that you sign it.

Environmental Education. Recently, you established the new Department of Education. This was an important first step of the Federal Government to strengthen citizen education. We respectfully request that environmental or conservation education be an initial, integral, important part of that continuing effort. We urge you to assure that this subject, essential to the survival, health and welfare of every citizen, be a prominent element of pre- and in-service training for all teachers and of the curriculum for all elementary, secondary and higher levels of education, as well as for adult education.

Oil Backout Legislation. The Administration's proposed oil backout legislation places too much emphasis on coal conversion and not enough on more efficient use of existing energy supplies. To maintain progress in cleaning up the nation's air, to reduce the worsening problem of lake and stream acidification, and to avoid the potentially catastrophic consequences of CO2-induced climatic changes, we urge you to strengthen this legislation by promoting proven energy conservation techniques—for example, by expediting implementation of the Building Energy Performance Standards (BEPS) being developed by DOE.

Coordination Act Regulations. On May 18, 1978, proposed "uniform procedures for compliance with the Fish and Wildlife Coordination Act" were published in FEDERAL REGISTER. The comment period closed on July 17, 1978. Yielding to Congressional and other pressures, the Department of the Interior first agreed to the preparation of an environmental assessment and more recently to the preparation of an environmental impact statement as a prerequisite step to finalizing and issuing the regulations. As a practical matter, NEPA requirements were more than satisfied by the entire process which led to the proposed rule making. This was followed by a mitigation symposium in Colorado. The clear message coming out of that symposium was the urgent need for the issuance of the new regulations. Without your intervention and assistance, the environmental impact statement and the revised regulations will not be completed until after November of this year. There is no reason for further delay. We urge you to direct the Secretaries of Commerce and the Interior to finalize these regulations as expeditiously as possible.

Great Plains Program. We recommend that you sign H.R.3789, extending the Great Plains Conservation Program.

If you or your staff have specific questions about any of these items, please contact me and I can refer them to the members of the conservation community who specialize in these issues.

Sincerely,
