MEMORANDUM

TO: Doug Huron 5259

FROM: Michael Grealy, DNC Legal Staff

RE: Expenditures by PFC on behalf of WH Staff

DATE: September 29, 1976

After investigating the President Ford Committees' FEC reports from January 1976 through August 1976, the following names of White House staff members have been identified as receiving expenditures from the President Ford Committee. The way we identified these names as White House staff was either by the address that was listed under their name on the report or through a White House Staff list we obtained.

It would be beneficial for us if we could obtain newspaper stories which identified these names as being present at a political event. This would further butress our argument that President Ford is using White House staff for political purposes and it would identify for us the date of the political event because the PFC report only lists the date of expenditure.

List one contains the names of 20 WH staffers who most frequently appear on the President Ford Committee FEC reports. List Two contains the names of all White House staff who we have identified as having received expenditures from the President Ford Committee.

Could you process the names from list one through the New York Times Index? Depending on the cost, could you also process the names on list two through the index?

MEMORANDUM

TO: Doug Huron

FROM: Michael Grealy, DNC Legal Staff

RE: White House Staff who appear in the newspaper as taking part in political activities.

DATE: September 29, 1976

The following names of White House staff have appeared in news stories as being present and /or taking part in political activities. These names either do not appear at all in the President Ford Committee FEC reports or their appearance in the reports is grossly disproportional to the number of times they appear in news articles as being present at a political event.

Any news stories which identify these names as being present and/or participating at political events are very important especially if there is no expenditure reported by the President Ford campaign on behalf of this person or persons.

List three contains the names of White House staffers who have appeared in the news as attending or participating in political events. Could you process these names through the New York Times index?
