TO

FROM Frank Moore

Rick Hutcheson

For your information, the President has returned to our office the notebook which lists Support Ratings for members of Congress. Attached is the cover memo that accompanied the notebook, which will be kept in our files.

THE WHITE HOUSE

WASHINGTON

January 28, 1980

MEMORANDUM FOR: FRANK MOORE

FROM: LISA BOURDEAUX Lisa

RE: SUPPORT RATINGS

In the attached notebook you will find an array of numbers and reports comparing and rating Members of Congress and their support for the Administration's legislative initiatives in the 95th Congress and the First Session of the 96th.

Methodology

A series of votes were chosen for inclusion in the profile by our staff on the basis of one or more of the following:

1. The Administration's visibility on the issue;
2. The level of the Administration's effort;
3. The importance of the issue relative to the Administration's overall program.

A fair representation of all pertinent issues was attempted. The individual votes were tallied and the scores averaged by the Office of Administration's System Development Office. Their staff did a good job of running the programs in a very timely manner.

Forty-six Senate votes and thirty-six House votes were used. Please note that a Member was listed as voting a particular way if he or she had voted, announced, or paired for or against a bill. Absences or abstentions were not counted. Therefore, a Member could have voted only a few times out of the 36 possible times yet have received a rating of 100% if he or she voted with the Administration in each instance.

A description of the selected House and Senate votes can be found behind tabs marked Profile Votes - 1st Session 96th. Of particular interest are the House and Senate percentages sorted by DNC region and the sections labeled Other Percentages. You will find support ratings sorted by committee chairmen and ranking minority Members as well as by seniority.
